

Here's your chance to have lunch and play golf with celebrities, from the world of sports and entertainment, and to help provide scholarships and recognition to good kids throughout the northwest.

The High Five Challenge TV Game show has showcased more than 8,000 high school students over the last 15 years on a spirited TV game show. To continue this great tradition the High Five Foundation is presenting the High Five Challenge Golf Tournament. Your participation will help insure that the show will continue to honor and support the area's good kids.

Only 20 team spots are available so don't wait to sign up. Registration Deadline is July 1, 2009.
Cost per foursome is \$700. This includes lunch at Heron Lakes, greens fees and a cart for the tournament as well as a gift bag.

This year's challenge will be to beat the Celebrity Foursome.

If you don't want to play golf but would like to make a donation, we would be happy to field a foursome of northwest high school students in your company's name. If you would like to make a cash donation to the High Five Foundation or donate an item for the auction, please call Wayne Faligowski at 503 626-9638 or e-mail wayne@high-five.com. The High Five Foundation is a registered non-profit so your contributions may be tax deductible.

The High Five Mission

The mission of the High Five Challenge is to recognize and reward today's good high school kids. The vehicle for this is the High Five Challenge TV Game Show where the kids compete against other schools. The show allows each student a chance to receive positive exposure and scholarship money for their school.

The Man With a Mission

Wayne Faligowski is creator and host of the High Five Challenge. After 16 years in TV news for the CBS affiliate in Portland, Wayne grew tired of all the negative stories surrounding kids. His determination to bring recognition to the vast majority of good kids led to his creating the High Five Challenge in 1993. Today the show airs not only throughout the northwest on Commercial TV, but on satellite and cable systems throughout the world.
